Office Use: Programme ref:	
----------------------------	--

The Yorkshire Dales Millennium Trust is a charity working with farmers, landowners and a range of organisations to protect, conserve and enhance the natural, built and cultural heritage of the Yorkshire Dales to benefit local communities and visitors. Since 1997 we have helped local groups and individuals to carry out over 600 projects to improve the wildlife, landscape, built environment and community facilities of their area. We also organise educational and training opportunities for local people, visitors and contractors.

We are now looking for woodland projects within the Eastern Dales – an area broadly defined as the Nidderdale Area of Outstanding Natural Beauty and surrounding area. We will try to raise the necessary funding to enable projects to happen. This project proposal form is the first step in that process.

Projects must be within 10 miles of a registered landfill site

There are six landfill sites within the designated project area – Catterick Bridge, Leyburn, West Tanfield, Ripon, Harrogate and Skibeden (near Skipton)

Projects must also:

- be for new planting or the restoration of native upland oak, ash or wet woodland
- significantly conserve, enhance or add to the understanding of the area's natural heritage and support its economic and social well-being
- be accessible to the general public (unless there is a good reason why access is undesirable) or be clearly visible from a public right of way
- be supported by the local community

You must:

- be able to make a contribution to the project cost - this can be cash, labour, materials or volunteer time
- be willing to allow our donors to visit your project if appropriate (eg a new woodland) by arrangement
- be willing to sign a ten year maintenance agreement for your project
- be able to get the landowner to give their consent for the project if you do not own the land. The landowner will also have to sign an agreement to give access to the land to enable monitoring and maintenance of the project for ten years

What happens next?

- this is the first step in applying for assistance from YDMT to raise funds for your project
- please bear in mind that applicants are competing for limited funds and so we are unable to support as many projects as we would like
- all proposals will be assessed and, if your project is one we can try to raise funds for, we can help you get a specification for the work to enable you to get three quotes (or least two) You may have done this already.
- assuming the lowest quote is reasonable we will try to raise funds for your project
- once we have the funds and the project has got the necessary consents and evidence of community support we will offer you a grant, which is paid on successful completion of the work
- where appropriate a project officer will help successful applicants manage their project

PLEASE ENSURE YOU INCLUDE A MAP SHOWING THE LOCATION OF THE PROJECT SITE WITH THIS APPLICATION

**If you have any queries please contact the YDMT Project Team
