Mobile Sawmills

IN AND AROUND THE YORKSHIRE
REGION

MOBILE SAWMILLING

Why use a mobile sawmill?

- Add value to your own timber for sale
- Convert material for your own use
- Makes harvesting and extraction of small quantities viable

What can you make with a mobile sawmill?

Virtually anything! For example: -

- Beams
- Flooring
- Fence Stakes and Rails
- Gateposts
- Yorkshire Boards & Cladding

Points to remember

- Talk to the miller about what it is you want to produce and ask their advice.
- Make sure you have good access, room for sawing and stacking, and means of lifting logs (some mills have their own lifting gear).
- If for exterior use you may need to treat the sawn timber depending on the species.
- If an unusual species (e.g. walnut) speak to potential end-users *BEFORE* milling so you cut to the correct specification.
